THIS BOOK IS DEDICATED TO A DEDICATED FAMILY THE RAMSEYS BOB MIRIAM AND ANN LYNNE

PROF. ROBERT RAMSEY

MIRIAM RAMSEY

Our dedication and theme this year is ". . . we are small but mighty." These words were spoken by a foreign student who, in his freshman theme, described his little country of Venezuela as such. Our dedication is to a small but mighty family—the PROFESSOR ROBERT RAMSEY FAMILY. On top of all of his teaching and committee duties, Professor Ramsey has constantly kept the air and TV waves saturated with TRI-STATE REVIEW programs; his wife Miriam has unselfishly devoted much of her time to developing one of the finest Glee Club organizations in this part of Indiana; and Ann Lynne just earned her college band letter for playing in the Tri-State College band even though she is only in high school. Both father and daughter play in the college band.

DR. PERRY T. FORD
Chairman, Board of Trustees

For the Seniors — A Sincere Message From a Sincere Person . . .

Presuming that motives are always wholesome it follows that knowledge, gained from experience and education, are the highest forms of human attainment.

The struggle for an existence frequently may limit our experience but the struggle for more learning never ends and has no limited horizons.

A student enrolled in college, in his pursuit of higher education, brings himself in contact with the teaching and administrative personnel. This contact, in a small College, can form the basis for an inspired outlook in the mind of the student and open the door for broader horizons for the future.

A college education has now become a minimum requirement necessary to meet the constantly increasing challenges that may come our way if we wish to live the full and useful life.

Tri-State graduates are scattered world-wide and their conduct and accomplishments bespeak the high caliber of training received here.

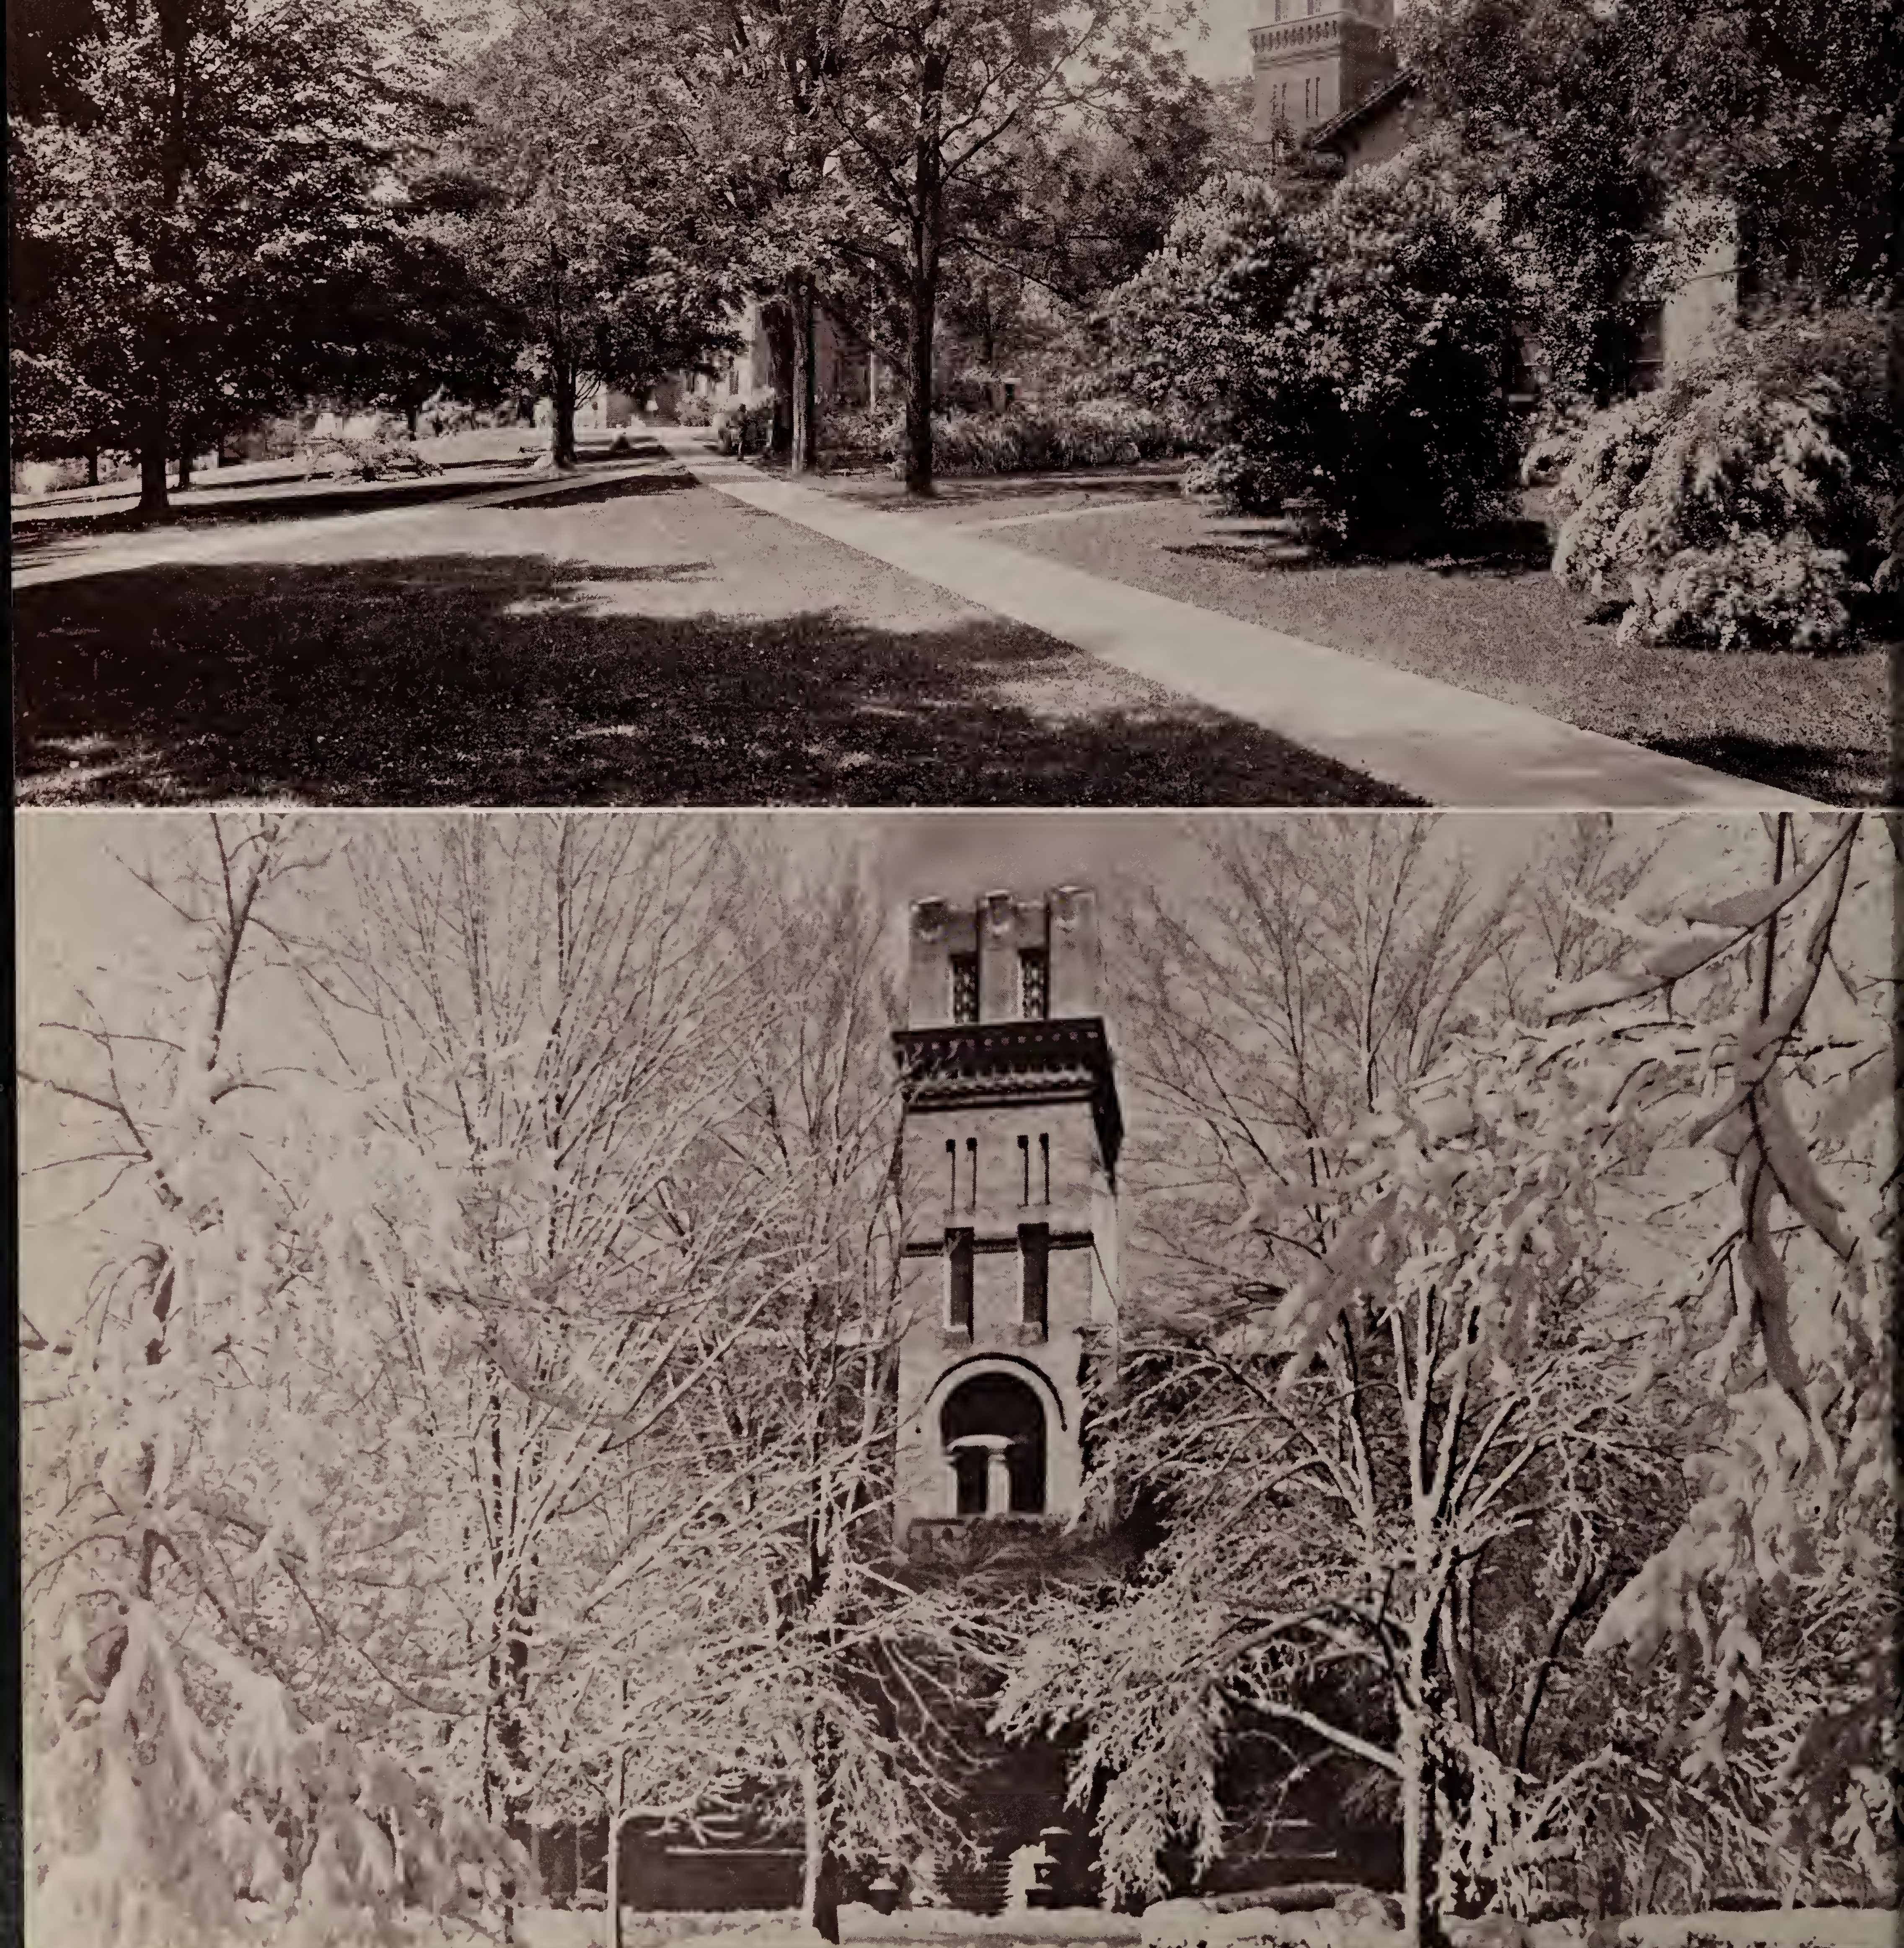
The joint obligations of all concerned; student, teacher, administrator and trustee respect the role each must play in the interest of a common cause.

We look forward to an ever expanding Institution of higher learning and visualize Tri-State College as surpassing the fondest hopes of its founders.

Perry T. Ford

Campus Hill

A CAMPUS NEVER CHANGING . . .



A LONGING FOREVER BURNING!

A MESSAGE FROM THE PRESIDENT DR. RICHARD M. BATEMAN

TO THE 1961 GRADUATE

It is my privilege to proffer to each of you the heartiest congratulations of the Faculty, Administrative Staff, and the Board of Trustees upon your graduation from Tri-State College.

You have learned many things since coming here—you have overcome many challenges. Now you will find in your new life ahead that there will be more things to learn and many more obstacles to overcome.

However, in leaving the College to face this new life, you are not severing connections completely. You are rather becoming closer knit to the College with your new status. You are an alumnus.

You will find daily reminders of the time you spent here. Your progress from now on will not only reflect upon you but upon Tri-State College. Day by day you will feel the necessity for constant improvement not only for your own personal satisfaction but for the betterment of the purposes of mankind.

With these thoughts in mind, I am proud to give you the College's best wishes and to send you forth into your new life, for I am confident that you will reflect honor upon your Alma Mater.

Richard M. Bateman

DR. RICHARD M. BATEMAN INAUGURATED ELEVENTH PRESIDENT OF TRI-STATE

Dr. Perry T. Ford, Chairman of the Board of Trustees, is in charge of the ceremony of investiture of the new president on April 6. Dr. Ford stated that in selecting Dr. Bateman, the trustees looked to him "for executive and administrative leadership needed to achieve the high purposes of this institution, and to lead it to the stature and greatness it must obtain."

"Congratulations, Mr. President," says Dr. L. A. Willig, the new executive Vice President of Tri-State.

INAUGURAL CEREMONIES

Inaugural Response by
Dr. Richard M. Bateman

It is with a deep feeling of humility that I accept the charge that has officially been given me today. Although I realize the task is not light, still it carries with it a rich satisfaction of service . . .

. . . To all of you—board of trustees, faculty, and staff, students, alumni, distinguished guests and friends, I pledge my efforts and abilities to move forward the objectives and services of Tri-State college.

It is my sincere hope that I will be able to contribute to the many accomplishments of my predecessors whose untiring efforts and unselfish devotion nurtured the growth and development of this institution since its founding 77 years ago.

In facing this task, it is most pleasant to have inherited an energetic administrative staff and faculty, and thousands of friends of the college in addition to the more than 12,000 loyal alumni found throughout these United States of America and many foreign lands . . .

Tri-State college has had an illustrious past and has a bright and promising future. It has met crises after crises in its history as a private college in this great state of Indiana and survived . . .

In conclusion I would like to quote . . . Walter Lippman . . . "Our education effort has not been raised to the plateau of the age we live in. We have learned that we are quite rich enough to defend ourselves whatever the cost. We must now learn that we are quite rich enough to educate ourselves as we need to be educated."

DR. FRED ZOLLNER JOINS TRI-STATE

Trustee Alwood and Friends

The Great Ring of Friendship at Tri-State

NEW HOMES FOR OLD!! Old Tri-Stan barracks are torn down or moved away to make space for new homes.

Two views of President Bateman's home now standing where the old barracks once housed hundreds of vets.

Married students still live in barracks.

New faculty homes are luxurious!

FLYING THUNDERBIRDS, INC.

The Thunderbirds are a group which believes that flying is not something for the select few to enjoy. As shareholders in the club, members receive the benefits and pleasures of flying for a moderate fee. The two airplanes owned and operated by the club are in the air as often as the weather permits. Those who have not flown before coming to Tri-State College are able to learn this modern art, and to obtain private pilot's licenses.

INSTITUTE OF AEROSPACE SCIENCES

The Institute of the Aeronautical Sciences is the representative society of engineers, designers, and technical specialists in all the sciences related to the design and development of airborn craft. Its basic mission is to facilitate by all available means the interchange of technical ideas among aeronautical engineers throughout the world.

Tri-State's student branch of the I.A.S. was organized in the spring of 1940. Major Lester Gardner, the founder of the I.A.S., and Captain Jimmy Doolittle inspected the college campus and qualified Tri-State College for the ranks of the I.A.S. Since then our membership has grown from approximately 35 to over 100 members at the present time.

During the school year the society sponsors events that will be beneficial to the student's training. In the spring of each year a field trip is held and members receive a chance to see industry at work. Twice during the year the society holds a banquet to honor its graduating members. During the year, as well as for the banquets, speakers are obtained from high ranking positions in the field of aeronautics to keep our members alert to the changes taking place in aviation.

US AIR FORCE–FLIGHT "D"

9669th AIR RESERVE SQUADRON

Organized in September, 1957, by interested Tri-State veterans, Flight "H" and then "D," of Angola, affords students a fine opportunity to fulfill their reserve obligations while attending Tri-State College. Flight "D," attached to the 9669th Air Reserve Squadron meets on campus each Thursday evening.

Since most of the reservists are Tri-State students, the weekly meetings and other reserve activities have been specially designed for the busy college student. No meets are held during regular school vacations, or from June until September, so as not to conflict with the student's regular summer vacation.

The flight is presently engaged in taking an Air Force Management course. Robert I. Cook, Associate Professor in Commerce, instructs the group in the twenty-four week course. At intervals throughout the course, one of the students lectures on some topic of military significance.

MOTOR TRANSPORT SOCIETY

The Motor Transport Society was inaugurated at Tri-State College on January 21, 1957, and it is comprised of students enrolled in the Motor Transport Management Course, which commenced in the fall quarter of 1956. The purpose of this organization is to promote fellowship and a broader understanding of the motor transport industry among the members as well as to provide special educational and social activities. These aims are accomplished by field trips which enable the members to see the practical application of their studies, by having prominent transportation men address the society, and by a banquet at the end of each term. The banquet is the social highlight of the quarter at which time new officers are installed, awards are presented, and the families of the students and faculty are brought together for an evening of entertainment.

. . . THE MOTOR TRANSPORT ADMINISTRATION EXHIBIT IN CHICAGO

Dr. Perry T. Ford and other Tri-State Board of Trustees point with pride to Dr. Everett Schadt's circular freight terminal which won honors and plaudits of thousands of viewers at the great Chicago Truck and Automobile Show.

INSTITUTE OF RADIO ENGINEERS

The I.R.E. branch on the campus is a student governed associate branch of the national organization of radio engineers. Its purpose is to keep the student abreast of recent technical developments in the electronics and allied fields. Membership in the national organization may be transferred from student grade to associate or member grades depending on experience. Membership entitles the student to attend local and section meetings where the latest material in the electronics field is presented by engineers from educational institutions and industry. The student associate branch also sponsors field trips to industry and important IRE conventions. As a member of the national organization the student receives the "Proceedings of the IRE" and the "Student Quarterly."

TRI-STATE COLLEGE RADIO CLUB

The Tri-State College Amateur Radio Club is composed of students with a common interest in amateur radio. The club is open to any student wishing to obtain an amateur license. Classes are held in amateur radio subjects and the Morse code whenever there is sufficient demand.

The club has equipment operating on 10, 15, 20, 40, and 80 meters CW, single sideband, and AM. More club equipment includes 6 meter FM and AM stations and a novice transmitter, receiver, and antenna. The club, housed in the power sub-station building, has emergency generators for standby power supply. Additional equipment is the FM mobile radio units that may be checked out by licensed club members, to be installed in their cars during their stay at Tri-State. Test equipment and shop facilities are available to members for use in working on club or personal projects.

MECHANICAL ENGINEERING SOCIETY

The Mechanical Engineering Society is an organization wherein engineering students can supplement their knowledge of the various phases of mechanical engineering.

Speakers, who are experts in their respective fields, are obtained to present the latest information concerning their products and industry as a whole. Movies are obtained for some of the programs and are also used in conjunction with the speakers' talks.

The society is affiliated with the Fort Wayne Section of the American Society of Mechanical Engineers. The dues paid to this organization are returned in the form of awards to society members who have done outstanding work in writing and presenting their engineering reports to the society.

Field trips sponsored by the society are held each term with one major field trip each spring. Visits are made to various industrial concerns covering all phases of mechanical engineering. On these field trips, the students are able to observe present manufacturing processes and practices and thus better prepare themselves for their futures as engineers.

Many activities were undertaken in the society this past year including the creation of a student paper reading contest within the society, the co-sponsoring of the annual MES, ASTE and SAE banquet, and the publishing and selling of the Mechanical Journal.

At this year's banquet, Mr. R. F. Underwood, Research Director for General Motors in Detroit, spoke on engineering applications in relation to research and development.

TOOL ENGINEERS

Here is an organized and functioning institution for the scientific knowledge in the field of Tool Engineering. Membership in ASTE offers an invaluable association with the men of importance in the profession. Prominent members are America's leading tool, die and machine designers, development engineers, methods engineers, master mechanics, plant superintendents, work managers, gauge engineers—and many others vitally interested in the development of better methods and better equipment.

At Tri-State our group is composed not only of Mechanical Engineering Students but of all students interested in Tool Engineering. The aims of the Society embrace all engineering fields where manufacturing is a problem. Thus any student who desires the contact of a professional society promoting the "improvement of products through Tool Engineering" will benefit by this association.

The ASTE program of development, broad in scope and proven sound is based on the knowledge that both products and methods must undergo important changes. This is a new era in America's production and today, as never before, the tool engineer is the key to greater productive ability. Invaluable assistance every member finds helpful in coping with the demands that industry places directly on his shoulders is his association with ASTE, with its technical meetings that provide for an interchange of needed information, its committees, its data sheets, its publication the "Tool Engineer," and many other services.

The Tri-State meeting is held on the third Wednesday of the month, one week following the regular monthly meeting of Chapter No. 56 in Fort Wayne. We have had Technical speakers for each meeting who further our knowledge of Tooling and initiate those who "know not" of its mysteries.

GLEE CLUB

During the fall quarter of 1953 the College Glee Club was organized by Mrs. Robert Ramsay, who serves as its director. Weekly rehearsals are held by the Club. Programs have been given for campus events and the group has also given programs for clubs in the community and high schools in the surrounding area.

BAND

The Tri-State College Band, reorganized early in 1947 through the efforts of Roy C. Bodie, Jr., who serves as director, has made a number of concert appearances during the past year. The band also plays for campus and sports events. Program selections generally include a wide variation of selections and arrangements, proving the versatility of the musicians.

Circle K Club of the college, which was founded on the campus in 1958, is a chapter of the "Circle K International," which had its origin in the United States in 1947.

A service organization sponsored by the Kiwanis Club of Angola, Circle K seeks to offer its services to the campus, to the school, and to the community, by promoting civic and campus activities on the college level.

The Modulus, campus yearbook, is published annually by a student staff.

TRI-ANGLE

A student publication, *The Tri-Angle* had its origin in December, 1946, when Roy C. Bodie, Jr., college print shop director, found a need for an informative media to be published monthly as an extracurricular activity.

Aims and objectives of *The Tri-Angle* are to inform the student body, faculty and administrative staff of the campus' activities; to help students to develop an appreciation of the newspaper; and to teach a sense of proportion to students for giving credit where credit is due and to criticize only when all the facts are present.

Gold keys are awarded each quarter to staff members that have done outstanding work while serving on the staff.

Each month the campus newspaper recognizes one student for his extracurricular activities and one for his athletic ability. Twice yearly, just prior to the graduation ceremonies, the staff pays tribute to the outstanding student for his scholastic ability, as well as for his extracurricular activities. The recipient of this award has maintained a good scholastic average and has found time to contribute to the school's recreational program.

Lucy Emerson, Director of News Services, is the adviser for the student newspaper.

SOCIETY OF AUTOMOTIVE ENGINEERS

On the 3rd of February, 1949, the initial meeting of the student chapter of the Society of Automotive Engineers was conducted at Tri-State College. Since then, through the close co-operation of its elected officers and faculty advisers, it has grown to be one of the most progressive societies on the campus.

The aim and purpose of this group is to uphold the creed of the S.A.E. "To promote the arts and sciences of engineering practices connected with the design, construction, and utilization of the automotive apparatus.

Meetings are held every first and third Wednesday of the month. Upon completion of the business portion, the society presents an outstanding collection of films and speakers in order to promote the academic and social growth of its active members.

We, as individual members, hope that in the years to come our society will develop to a greater degree the high ideals toward which it is striving.

CIVIL ENGINEERING SOCIETY

The Civil Engineering Society serves its members as both a social and educational organization. The society not only provides an opportunity for the civil engineering students on the campus to meet socially, but also provides films and speakers from many different branches of industry to enlighten the members to some of the aspects of this diversified field of engineering.

The civil engineering society, which is the largest society on the campus, has through active participation of faculty and students continued to grow in membership and importance.

Tours to other outstanding college and university chemistry labs are a quarterly event for the society members.

NEWMAN CLUB

The Newman Club is a social and religious organization for Catholic students on campus. There are many such groups at non-Catholic colleges in the United States. The club provides its members with a well rounded program of activities, highlighted by the annual open house at Leo Newman Hall. Membership is limited to Catholic students, but all are welcome at any of the club's social events.

BOOSTER CLUB

The purpose of the Booster Club at Tri-State College is to foster school spirit, and to gain greater interest in college activities, both athletic and social.

Students, students' wives, faculty and others who are interested in improving extracurricular college activities, are eligible for membership in the club. All student organizations on campus have representatives in the club. These representatives inform the other students of the progress of the Booster Club.

The club promotes many projects. Noteworthy accomplishments of the club are: the Float Parade which is held before the first home game of the basketball season, the excellent cheerleading squad, the sale and distribution of basketball programs, and the "Beat Tech Bus" which transports rooters to the annual "Bulging Boiler" game. The club also sponsors term dances, and the Tournament Night which is held in the recreation hall during the winter term.

The membership of the Booster Club is large, but to obtain better results and a more interested student body, more members are needed. You are welcome, won't you join us?

TRI-STATE CHRISTIAN FELLOWSHIP

Tri-State Christian Fellowship is a chapter of Inter-Varsity Christian Fellowship which is a national organization belonging to the Inter-National Fellowship of Evangelical Students.

The IVCF Chapter at Tri-State is one of nearly 500 groups in the United States and Canada. It is interdenominational and evangelical. The purpose is to bring before college students questions on the following: How can we know God; Who is Jesus Christ; and Is Christianity practical? The Chapter is formed to provide fellowship for Christians in prayer, Bible Study, and social activities.

INTERNATIONAL STUDENTS ASSOCIATION

The I.S.A. was organized during the school year of 1949-1950, to aid in the plan of world peace and to give students an opportunity to have a mutual understanding of their foreign neighbors. This association has presented discussion programs for civic organizations in Angola and nearby communities. Our Ideal can be stated in these words, "The Essense of Unity is Brotherhood." No barriers of language or customs have retarded our progress, because we all cherish the words of Socrates, "I am a citizen not of Athens, nor of Greece, but of the world."

TRI-STATE HOMEMAKERS

The Homemakers Club was organized to promote good fellowship among the wives of Tri-State students, and to offer educational and recreational opportunities to its members.

The organization has held a successful tea for new students' and faculty wives, an annual event held so that we might become better acquainted with one another. Other activities have consisted of a bake sale, a supper with husbands as guests, and various programs concerning interior decorating, fashions, and modern homemaking.

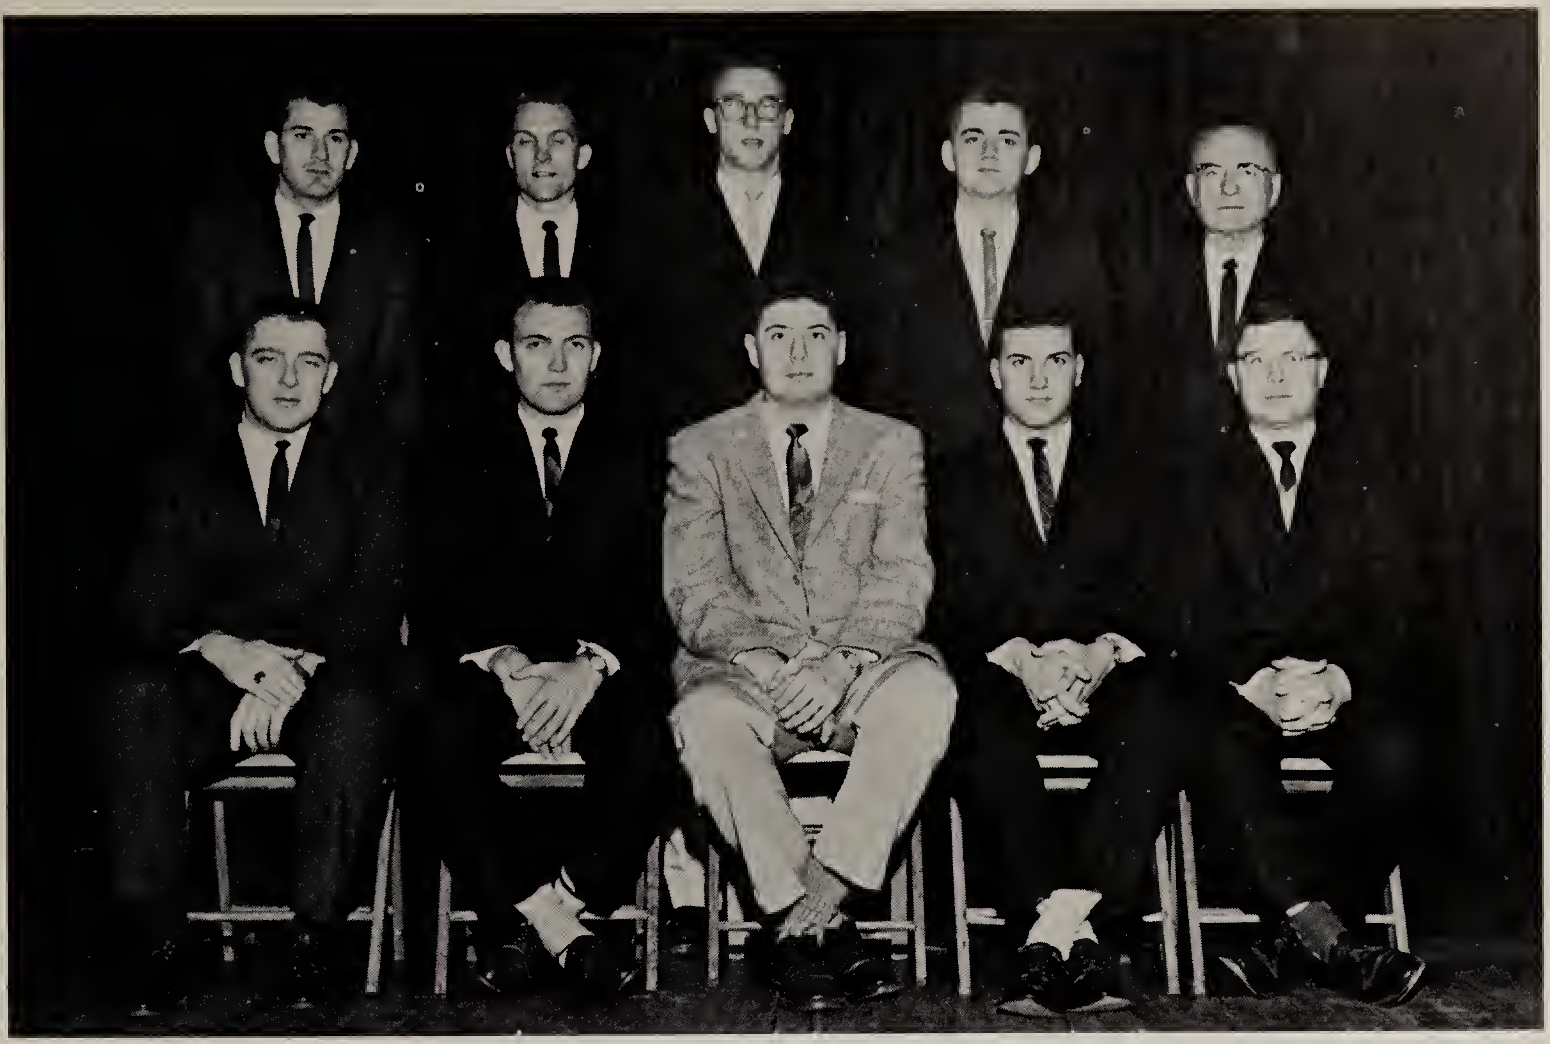
STUDENT COUNCIL

The purpose of the Student Council of Tri-State College is: to build school spirit; to represent the student body; to promote and coordinate social and intermural activities on the campus; to foster equitable and friendly relations between various organizations on the campus, between the student body and Tri-State College, and between the student body and outside factors.

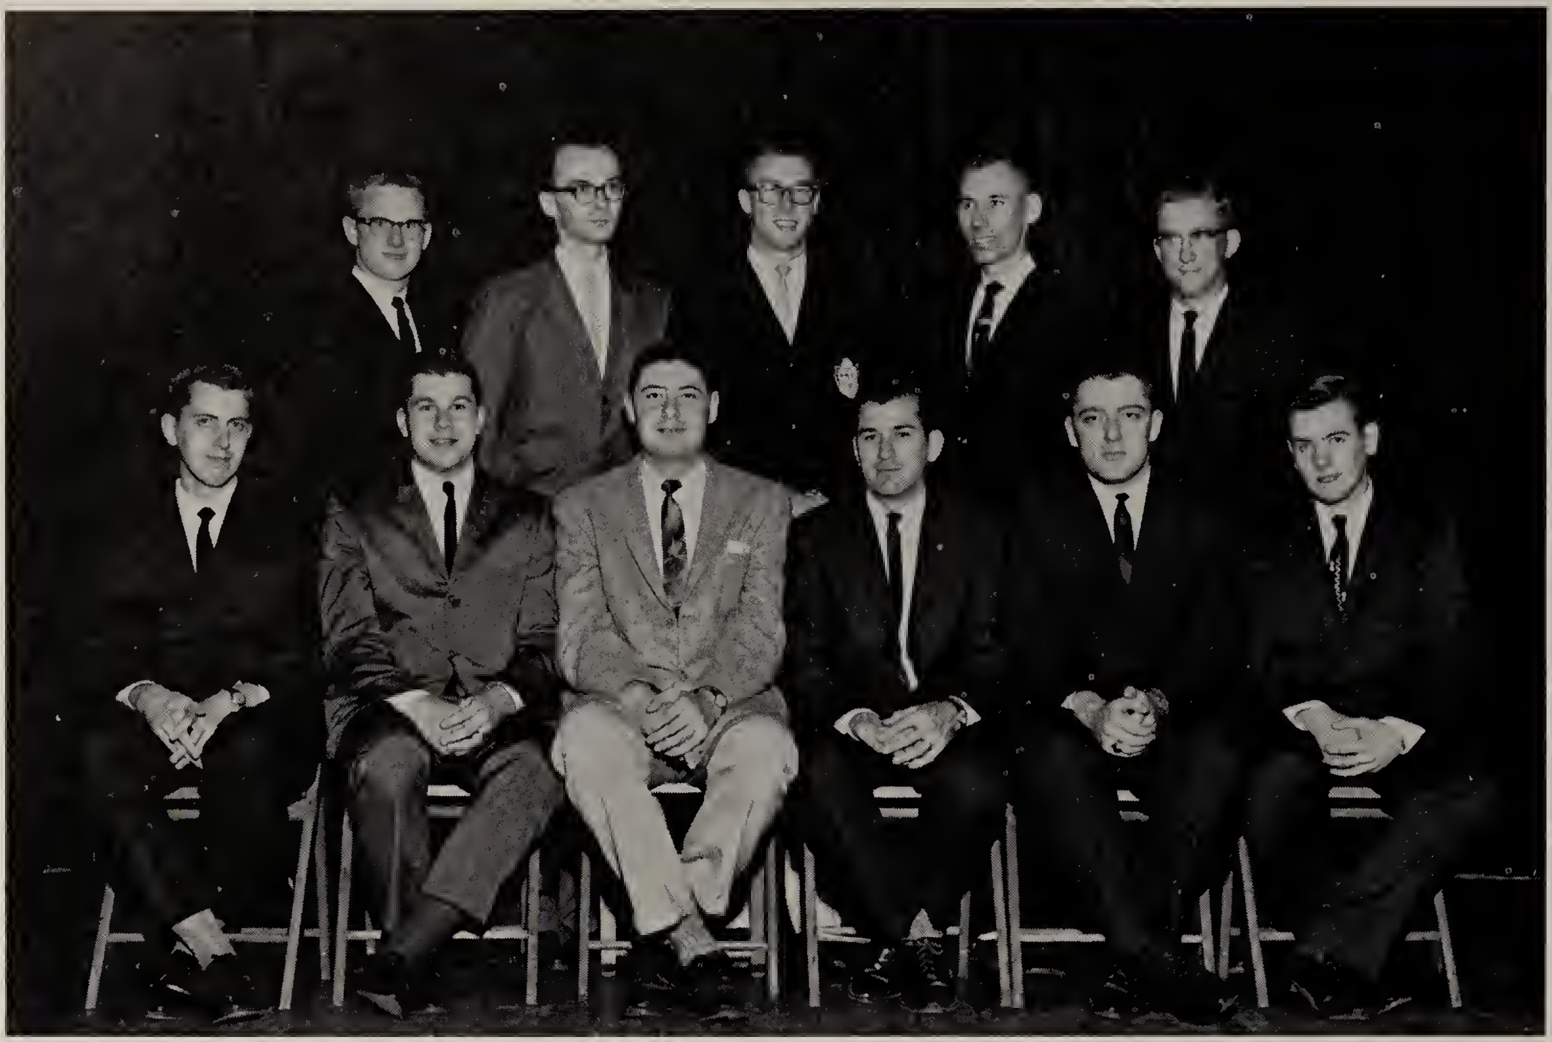
Each member of the Council represents a society, fraternity or other student organization. In echoing the decision of the group he represents, the council member reveals to the Student Council the majority attitude of a segment of the student body. This allows the Council to act upon the wishes of a majority of the student body.



Left to right
FIRST ROW: Hersey, Schick, Blumenthal, Frey, Cole
SECOND ROW: Rupert, Nicholas, Barrack, Rudy, Dean Nurnberger

STUDENT DIRECTORS

The Tri-State Student Directors, an honorary organization, was formed to be of service to the college. Membership, representative of the students from all phases of campus activities, is by selection only, and is based on leadership, scholarship, dependability, co-operation and evident desire to promote the welfare of the college. Among the activities for which the Student Directors serve are registration, orientation, baccalaureate, commencement, alumni reunions, and the Christmas party for Tri-State College children.



Left to right

WHO'S WHO

Who's Who Among Students in American Universities and Colleges. Each year a group of Tri-State College students is selected for inclusion in the annual edition of "Who's Who Among Students in American Universities and Colleges." Students in the Senior and Junior classes are nominated by a committee appointed by the Dean of Students. Excellence and sincerity in scholarship, leadership, and participation in extracurricular and academic activity, citizenship and service to the school, and promise of future usefulness to business and society are considered in the selections.

. . . self discipline and determination!

SKULL AND BONES

In the spring term of 1948 the foundation was laid for Skull and Bones, COA, an honorary society.

Membership in Skull and Bones is by election and based on the student's participation and leadership in campus organizations and activities. The purpose of this honorary organization, national in scope, is to recognize outstanding leadership of students in extracurricular activities, to encourage and promote student activities as a whole, to facilitate student brotherhood and spirit, and to promote to the highest degree, the traditions, honor and prestige of Tri-State College.

ALPHA BETA ALPHA

Alpha Beta Alpha, the honorary commercial society, was founded in 1938 by two of its present faculty advisers—Harold and Howard Hoolihan. The purpose of the ABA is to create an enthusiasm for scholarship, to promote worthy leadership, and to encourage the development of character in students of the School of Commerce.

To become eligible for consideration the student must either maintain an average grade of "A" for a period of four consecutive terms or an average grade of "B" for six consecutive terms with not more than two "C's" during that period. Students meeting the requirements of character, leadership, and scholarship are then initiated into the society.

The vocational achievements of ABA alumni demonstrate the caliber of men and women recognized by this society.

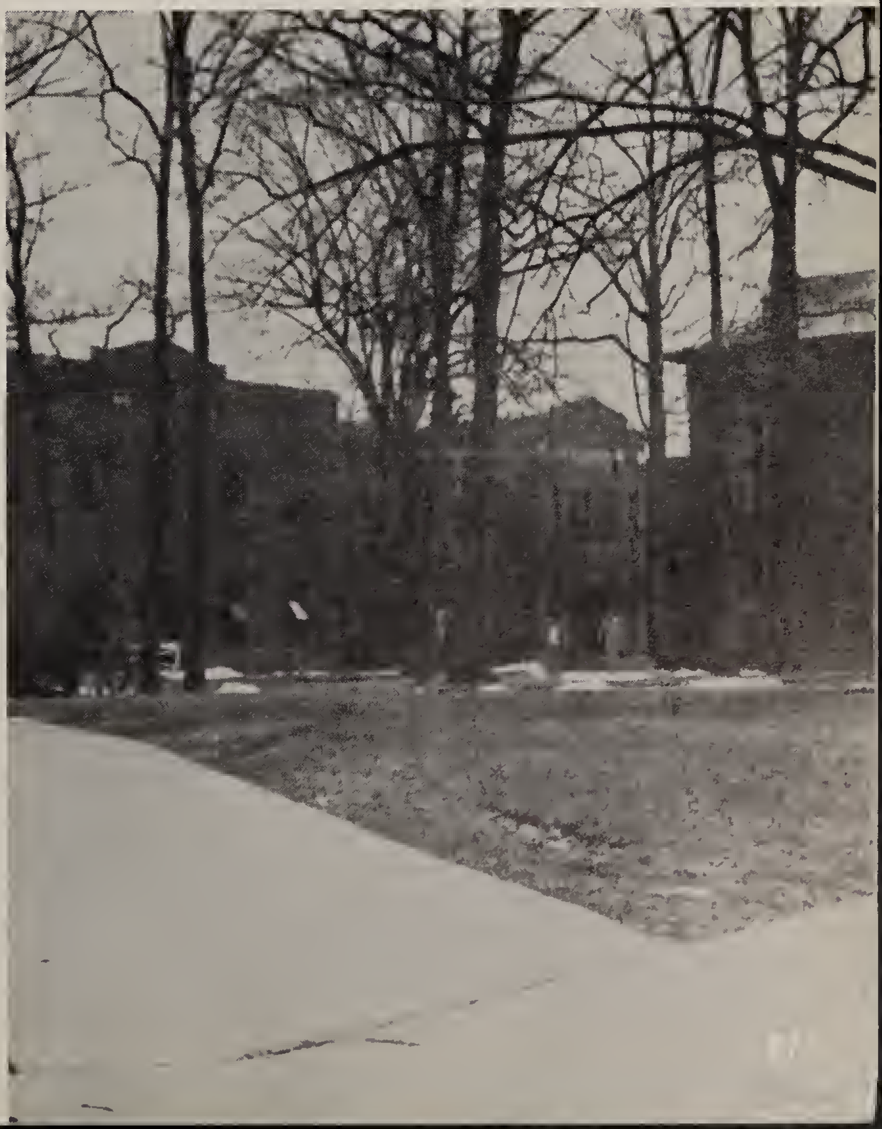
SIGMA EPSILON SOCIETY



Sigma Epsilon, the commercial society of Tri-State College, has been in existence since 1933. It has always been an outstanding society on campus and is expected to continue its good work.

The purpose of the society is to sponsor organized activities and to promote the development of a closer relationship among the students in the school of commerce. Meetings are held every two weeks and a guest speaker or educational movie is a part of every meeting. All students of the Commerce Department are invited to become members.

Edwin Baker

John Blackburn

TAU SIGMA ETA

Tau Sigma Eta, the Honorary Engineering Society, was founded on campus in 1950. Its purpose is to recognize and to promote scholarship in the School of Engineering and to initiate projects that will be beneficial to the college.

Students who maintained an average of 3.1 honor points or more during four consecutive quarters and who have carried a minimum load of 20 hours per quarter and who have received no more than 5 C's are eligible for membership. An honor point ratio of 3.0 must be maintained for a member to remain active in the society.

Presently the society operates the used book store at the beginning and end of each quarter. Tau Sig members have also set up a tutoring service for engineering students.

Because of their ideals and activities, Tau Sigma Eta members are admired and respected by both students and alumni of Tri-State College.

FRATERNITY CRITERIA

We consider the fraternity responsible for a positive contribution to the primary functions of the colleges and universities, and therefore under an obligation to encourage the most complete personal development of its members, intellectual, physical, and social. Therefore, we declare:

I That the objectives and activities of the fraternity should be in entire accord with the aims and purposes of the institutions at which it has chapters;

II That the primary loyalty and responsibility of a student in his relations with his institution are to the institution, and that the association of any group of students as a chapter of a fraternity involves the definite responsibility of the group for the conduct of the individual;

III That the fraternity should promote conduct consistent with good morals and good taste;

IV That the fraternity should create an atmosphere which will stimulate substantial intellectual progress and superior intellectual achievement;

V That the fraternity should maintain sanitary, safe, and wholesome physical conditions in the chapter house;

VI That the fraternity should inculcate principles of sound business practice both in chapter finances and in the business relations of its members.

These criteria should be applied in close cooperation with the administrative authorities of the institutions. Detailed methods of application will necessarily vary in accordance with local conditions.

It is the purpose of the national interfraternity conference to offer detailed suggestions, after further study and investigation, regarding practical steps to make this cooperation effective.

INTER-FRATERNITY COUNCIL

Through the need of an organization to represent them as a unit, several years ago the fraternities on the campus formed a group, as a result of their feeling, which is known as the Inter-Fraternity Council. Since its formation in 1936 the purpose and fundamental idea of this council has been to create a closer fellowship, and to combine the ideals and standards of the individual fraternities.

Each of the fraternities is represented by two members whose duty is to present the ideas and plans of their respective organizations. Should any difficulties arise among the individual organizations, the Inter-Fraternity Council in its advisory capacity, reasons and advises the respective groups. In this manner an efficient and swift settling of differences is accomplished with a general satisfaction to all parties.

The Inter-Fraternity Council sponsored athletic and social functions besides being an advisory body. This past year saw the addition of several new sports to the list of friendly competitive sports already engaged in.

In accomplishing its two-fold purpose the Inter-Fraternity Council has sponsored athletic competition, offering trophies to the victors, and a dance each term is looked forward to by both fraternity and non-fraternity men. This serves to give the students a few social functions during the year. The dance likewise is an appropriate setting for the presentation of the scholastic plaque by the council to the fraternity with the highest scholastic standing for the term.

Since its formation the Inter-Fraternity Council can well be proud of its accomplishments and of the progress it has made since its formation. Each year it has succeeded in improving on its past accomplishments and in strengthening the ties of friendship already existing. The council, now a well organized and respected body, looks forward with eagerness to many more successful years at Tri-State.

ALPHA GAMMA UPSILON

Lambda Chapter, Alpha Gamma Upsilon, had its beginning as Phi Sigma Chi in the fall of 1927. Greater benefits and more prestige initiated the desire on the part of the members to merge with a national collegiate fraternity. This desire became a reality when in May, 1949, Phi Sigma Chi received its charter and became known as Lambda Chapter of Alpha Gamma Upsilon. Since then A.G.U. has spread throughout Michigan, Indiana, Ohio, and Pennsylvania, firmly establishing itself as an ever-growing collegiate fraternity.

The present members of Lambda Chapter are meeting the challenge of many brothers who have passed through its doors—to maintain high standing scholastically and socially.

ALPHA SIGMA PHI

On December 6, 1845, at Yale University Alpha Sigma Phi was formed. It is the tenth oldest national social fraternity, and it is also a charter member of the National Interfraternity Council.

The Beta Omicron Chapter dates back to 1925 when it was known as Phi Lambda Tau. In 1929 this fraternity and Alpha Delta Alpha merged, but in 1935 it disbanded. The house then became the Alpha Beta Chapter of Alpha Kappa Pi. On September 6, 1946, the A.K.Pi's merged with Alpha Sigma Phi, and this house became the Beta Omicron Chapter of Alpha Sigma Phi.

BETA PHI THETA

In November 1917 Beta Phi Theta was founded as a social organization on the campus of Milwaukee State Teachers College. It flourished purely as a social group until 1942 when the first national convention was held.

The history of the Delta Chapter at Tri-State dates back to 1922 when the "Four-Eleven Gang" was formed. Later from this organization Lambda Phi Epsilon was formed, and in 1925 they opened the first fraternity house on the campus. In 1929 the Delta Chapter of Beta Phi Theta was chartered from this first Tri-State fraternity.

PI LAMBDA PHI

This is the way Pi Lambda Phi, a national fraternity came to Tri-State College. In 1938 a group of students organized the Kadinak Society. This organization later evolved into the Alpha Chapter of Theta Mu Pi. During the late 1940's this fraternity was reorganized and became known as the Beta Chapter of Theta Mu Pi.

The Theta Mu Pi fraternity became affiliated with a national fraternity of Beta Sigma Tau in October of 1950. In December 1960 Beta Sigma Tau merged into pledgeship with Pi Lambda Phi.

Today the Delta Chi or Tri-State Chapter is a pledge colony of Pi Lambda Phi. From its inception the chapter has lived up to the motto of "Equality, Understanding, and Unity."

KAPPA SIGMA KAPPA

The Indiana Gamma Chapter of Kappa Sigma Kappa was organized on campus in March, 1952. Prior to this date, the Kappa Sigma Kappa house had been associated with various fraternities. "The House on the Hill" served the original chapter of the present Sigma Mu Sigma Fraternity until 1936, when the remaining actives merged with a large national fraternity. After a brief period with a local fraternity, the house became the home of Tau Kappa Epsilon in 1947.

In 1952 Tau Kappa Epsilon withdrew from the campus, and in March of the same year Kappa Sigma Kappa took over "The House on the Hill."

PHI KAPPA THETA

The youngest fraternity on campus, Phi Kappa Theta National Catholic Fraternity was produced by a consolidation of Phi Kappa and Theta Kappa Phi in April, 1959.

Phi Kappa was founded at Tri-State in 1943, but its origin as a national fraternity dates back to 1889 when it was begun at Brown University. Theta Kappa Phi was founded in 1919 at Lehigh University.

The newly-chartered fraternity endeavors to encompass the moral, the spiritual, and the ethical conduct of its members by developing in them the art of working and living together in a united fraternity.

Though a young fraternity on campus, Phi Kappa Theta is planning for its future, as evidenced by a recent purchase of 13 acres of land located southwest of the college on which it plans to construct a new fraternity house and recreational facilities for its members.

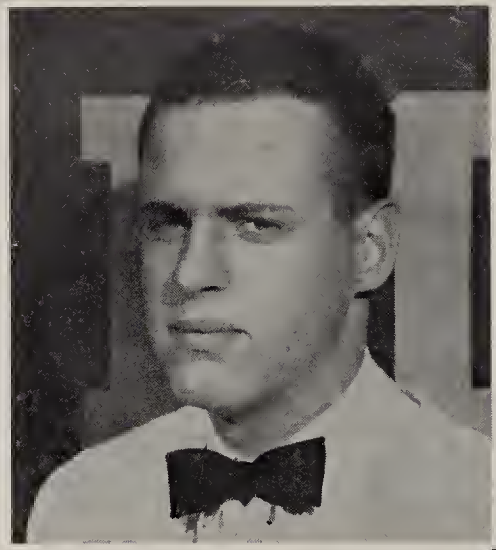
SIGMA MU SIGMA



Coleman Brown II

Ivan K. Charley

The Alpha Chapter of Sigma Mu Sigma was founded at Tri-State on Good Friday, in March, 1921. The fraternity, which was founded by three Master Masons, was elected to the National Organization at Washington, D. C., in June, 1924.

The primary purposes of Sigma Mu Sigma are to instill in its members the three principles of sincerity, morality, and scholarship; to create a well-balanced college life; and to create men who will be capable of taking their places in business and in industry.

The Alpha Chapter was honored by being selected as the site of the National Convention in August, 1959.

SIGMA PHI DELTA

Sigma Phi Delta, an international fraternity of engineers, was founded on campus in 1947. Our Kappa Charter was an outgrowth of the interest of Mr. LeRoy Horpedahl of Epsilon Chapter, who was serving on the college faculty. The need for an engineering fraternity was apparent to engineering students, and by May, 1947, thirty-nine undergraduates had been installed as Kappa Chapter, the fraternity's first postwar chapter.

During its early growth, Kappa was located on Pleasant Street. In 1952, Kappa purchased its own house on College Street and continuous remodeling and planning have increased the capacity and enhanced the appearance.

In the near future Sigma Phi Delta is planning its National Convention at the University of California at Berkeley. The brothers of Kappa Chapter, both active and alumni, are planning to attend.

The promenade that gets things humming

The wishing well that gets people loving

The long walk around just to get acquainted

. . . and a queen is chosen for the grand night of fun and dancing.

QUEEN KAREN ROY

she gets a loving cup . . .

and a lover, Ray Thompson

THE QUEEN'S LADIES

Left to right: Sherry Bates, Tita Cosme, Queen Karen, Carmen Kroll, Pat Killmon

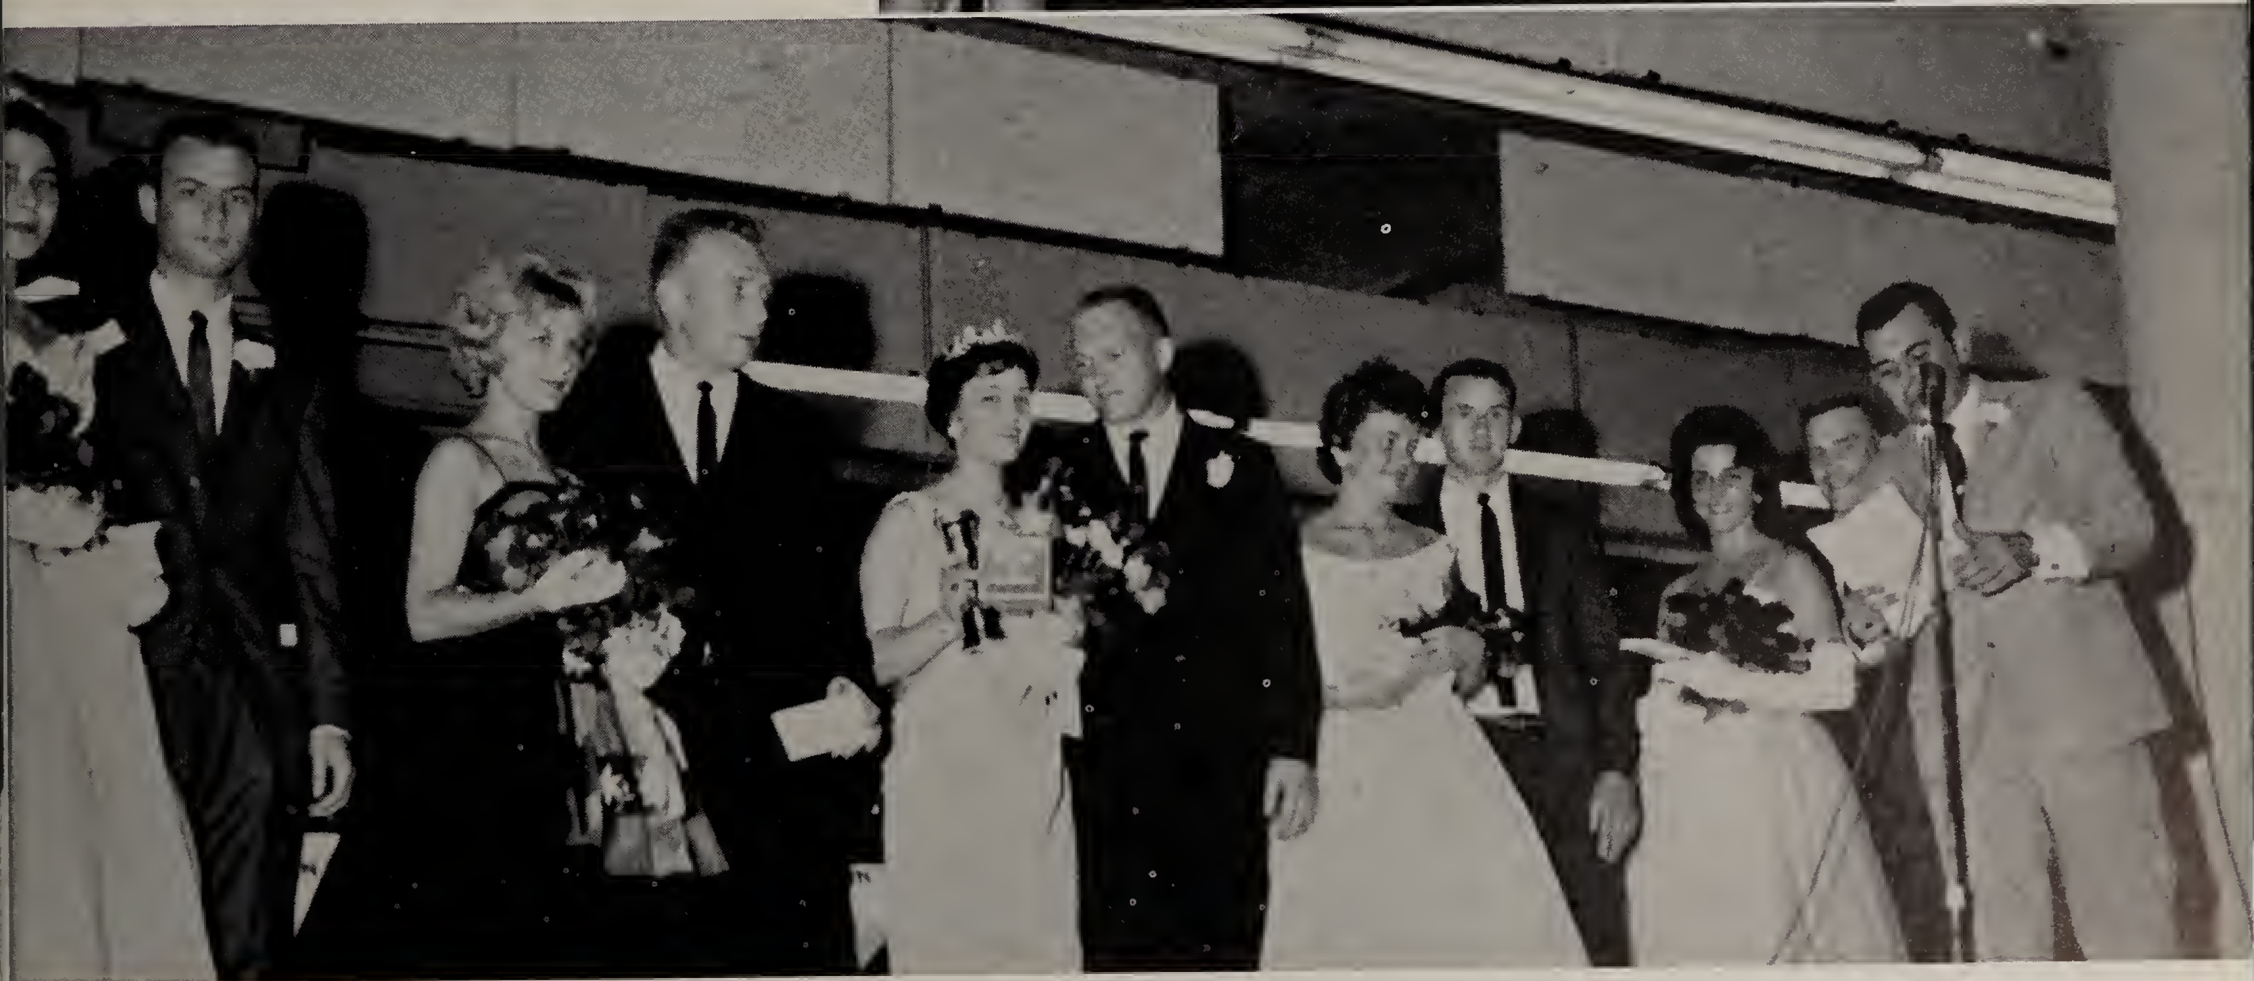
THE QUEEN'S COURT

Left to right: Terry Carter, Sherry Bates, Gabe Diaz, Tita Cosme, Ray Thompson, Queen Karen, Ray Knoll, Carmen Knoll, Tom Killmon, Pat Killmon

With the seasons the queens change hands, and pass the loving cup to those from other lands.

Queen Karen gives up the cup to the new queen, Mary Bowles, who throws an admiring glance at Prince Charley.

QUEEN MARY'S COURT



Left to right: Mary Slanina, Terry Carter, Joan Tell, John Engalls, Queen Mary, Prince Charles, Ann Kern, John Hall, Lucille Helm, and President Bill Neumeyer.

After the crowning, everyone danced at the Queen's Ball.

. . . some blondes held on tight, others oogled . . .

. . . as the night got warmer and warmer

and now for the big party

Quint was there

and little Joyce too

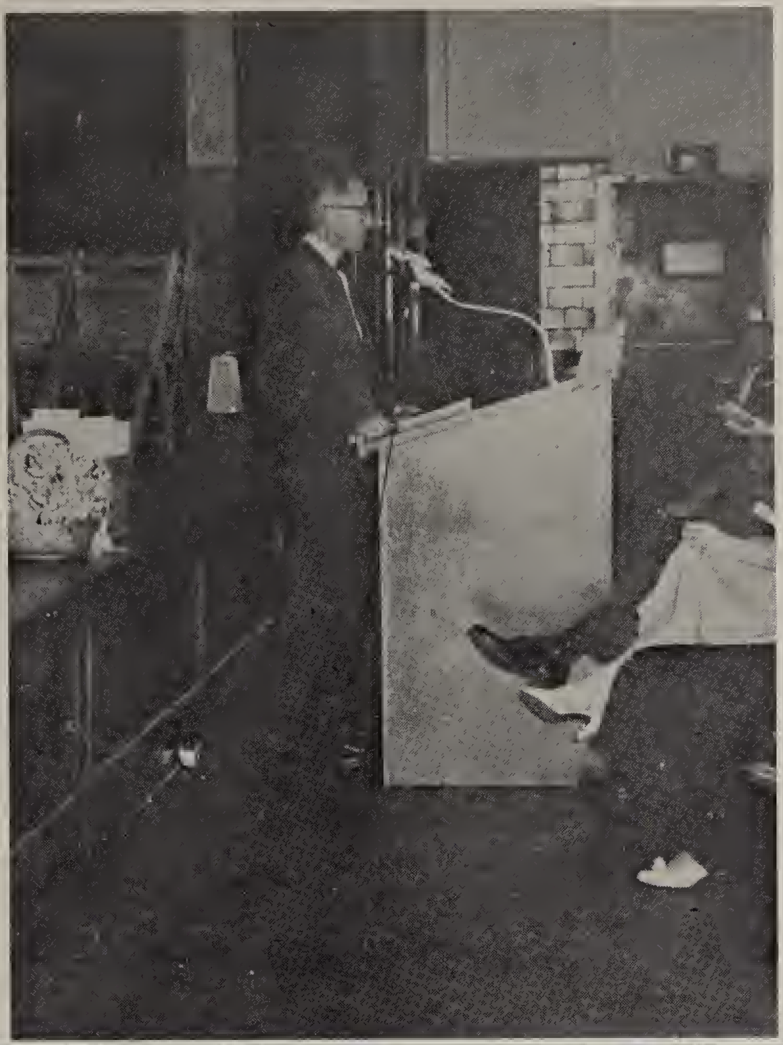
plus hundreds of others who wanted a good view.

CLASS DAY

. . . awards to mothers for being so nice

and babies who kept us up all nights.

"Congratulations and good luck," says Dr. Radcliffe to us all; he knows that this is the beginning of a great struggle and not the end of a great call."



Our parents were there, listening with awe

On that same evening we met in cap and gown to hear the ministers tell us that God will lead us even more than before, cause now we learned the truth that makes Him mighty.

BACCALAUREATE

... and little Joyce was there

so were Alpha Sigs Bill, Joe, and Walt

Hugh Babcock came for the ride, as did Miss Hess; and look at Smitty in all seriousness!

On the next morn the "degree-giving" area was empty and forlorn.

COMMENCEMENT

But we were there early just to say hello once more and to pass on that great memory that would someday become folklore.

Governor of Indiana M. E. Welsh led us toward our new titles and new worlds.

He too received a degree from this college that is "small but mighty."

. . . and after his degree was granted, he gave us a talk that was toward education slanted. He seemed to say, "give us your uneducated masses, and we here in Indiana will place them in classes."

How proudly they all listened to the Governor, our sisters and brothers, fathers and mothers, sons and daughters, and our lovely wives.

Earlier in the year others got the reward as Rockwell did because of his own accord in the competitive world.

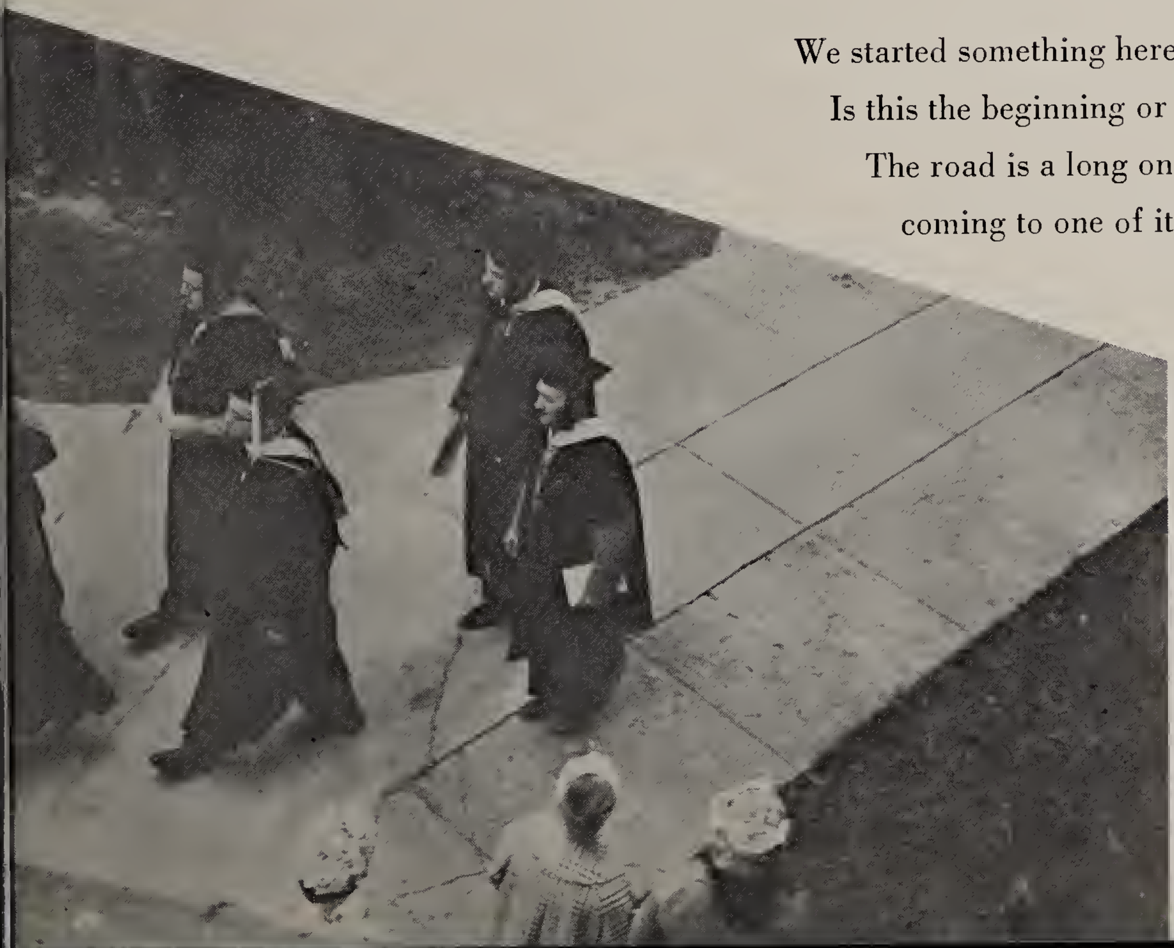
. . . while Jean won acclaim for her great zest and undaunted pursuit of knowledge.

one by one we came as Dean Hawthorne called our name . . .

diploma in our hand we moved toward a man, our own President Bateman who smiled, squeezed our hand, and said, "Congratulations and Good Luck."

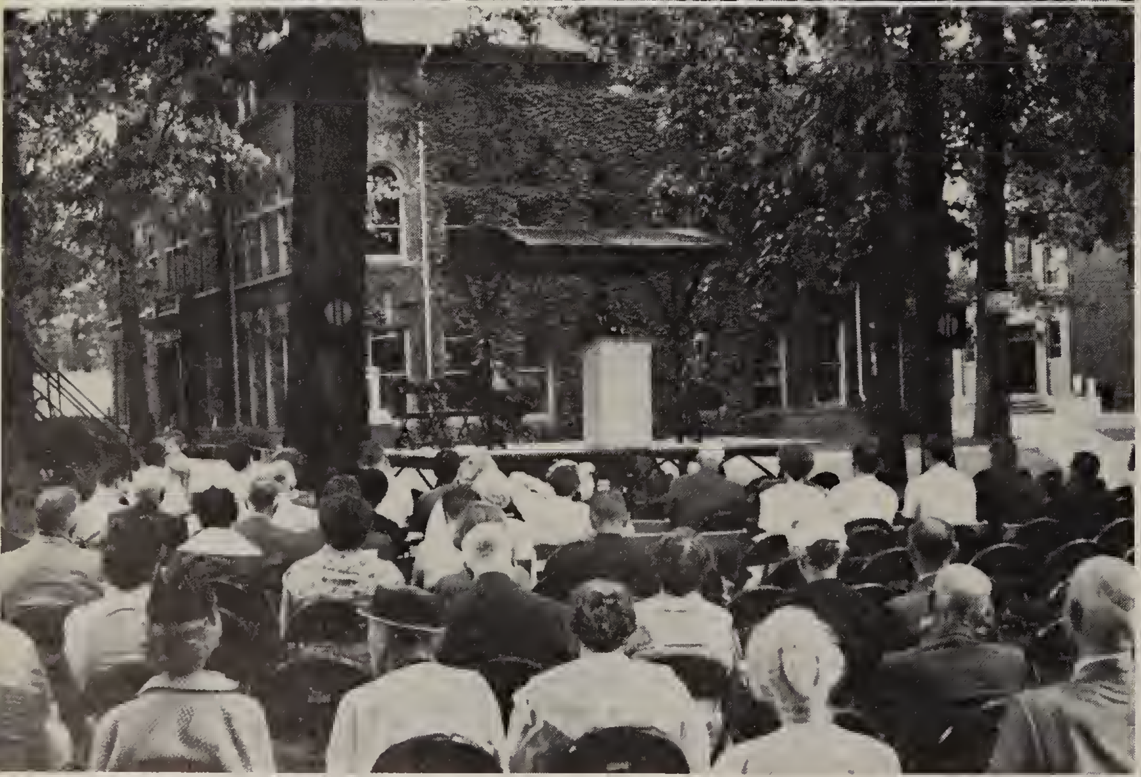
We smiled all the way down those three steps and kept thinking, now what's next?

We started something here not too long ago;
Is this the beginning or is this the end?
The road is a long one; we're just
coming to one of its small bends!



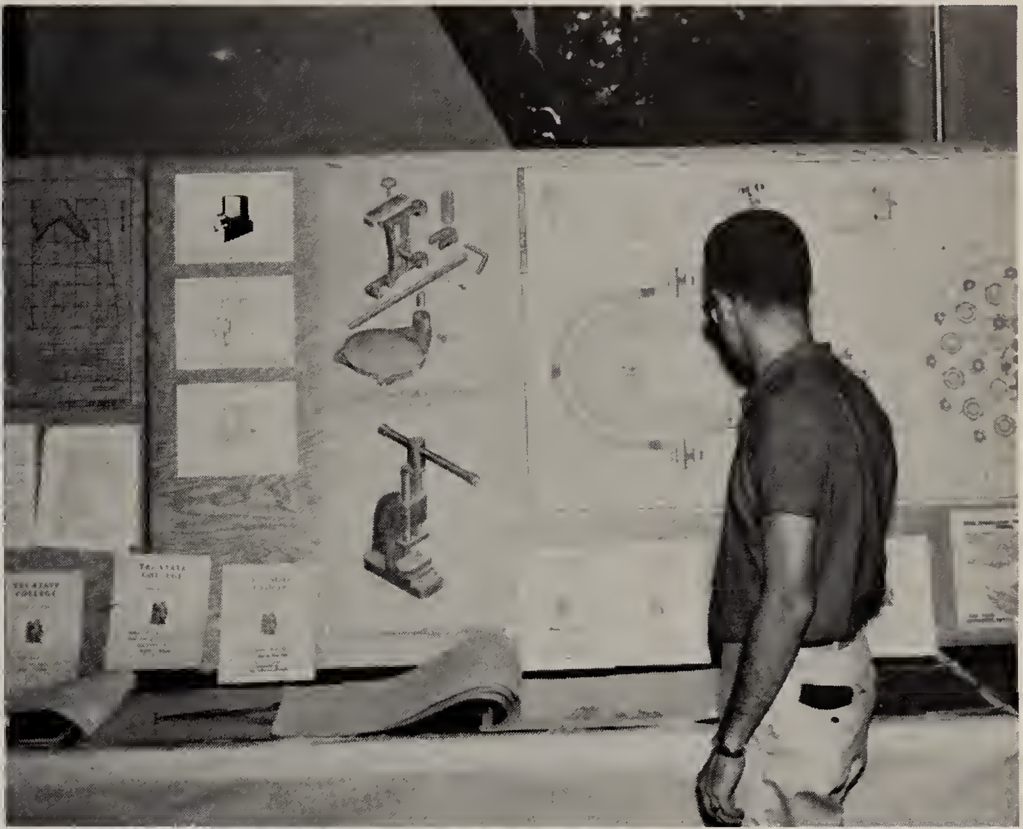
THE ALUMNI RETURN

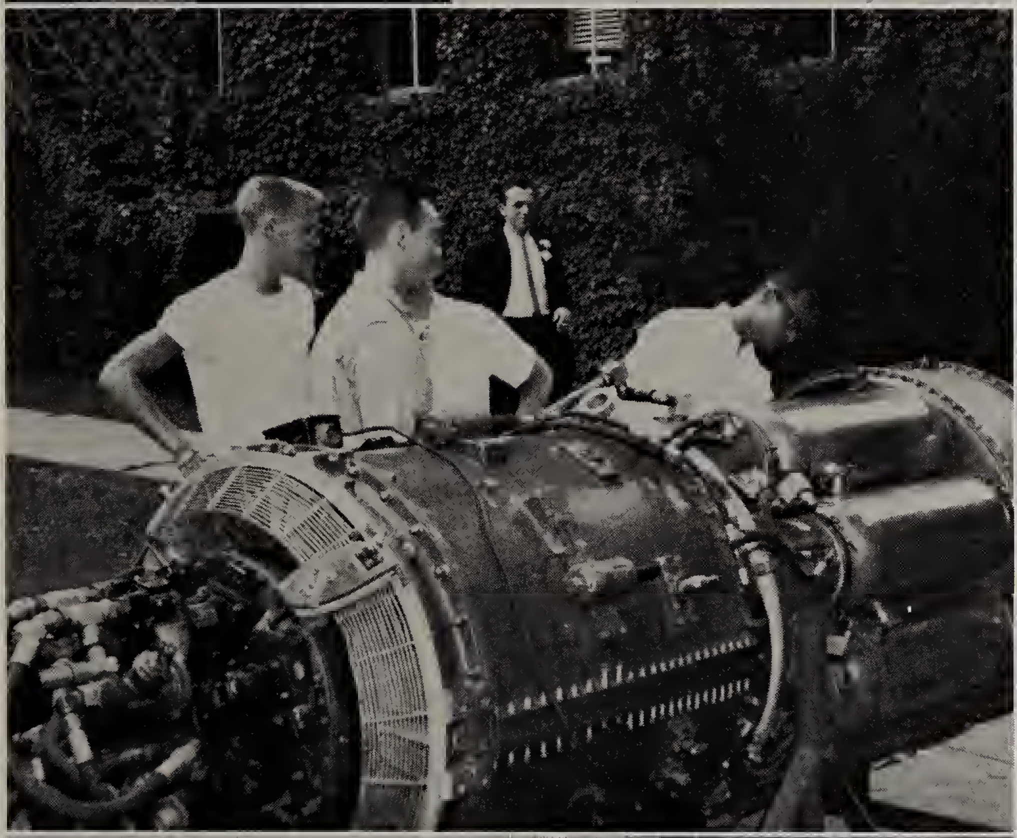
. . . TO HEAR SPEECHES AND



TO INTERVIEW US

AND TO EVALUATE OUR WORK





THE ALUMNI VISIT OUR DORMS

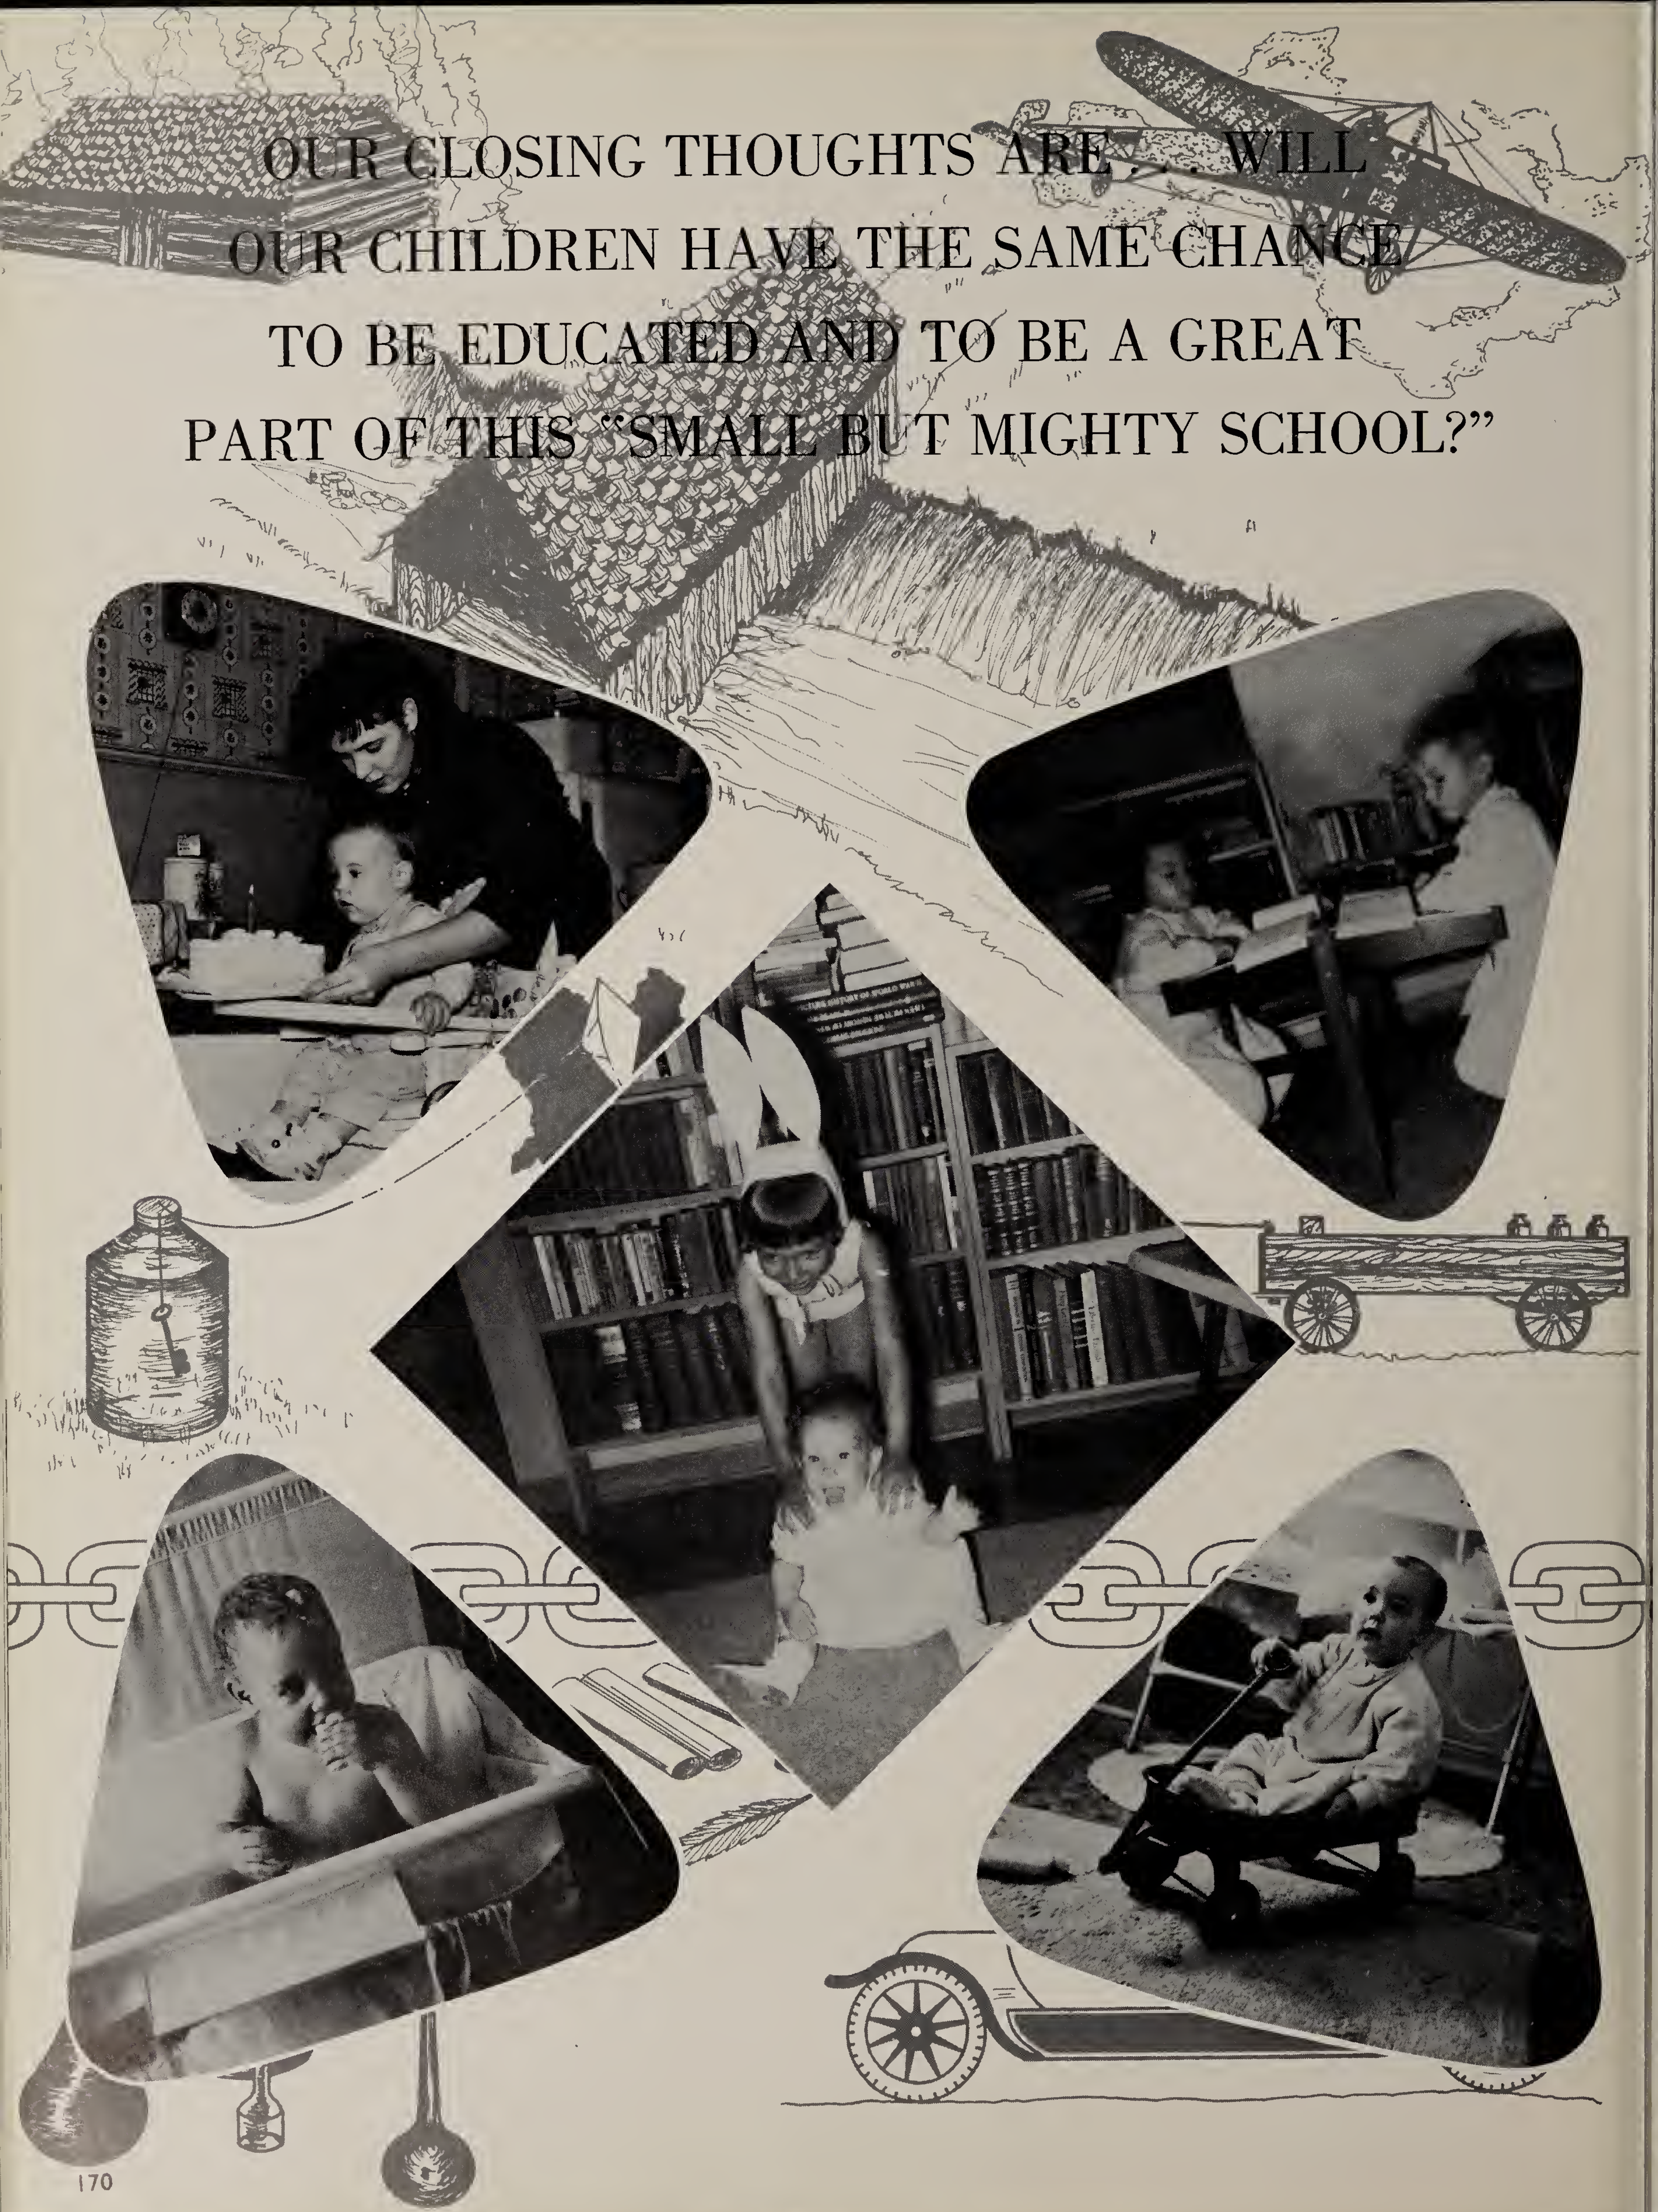
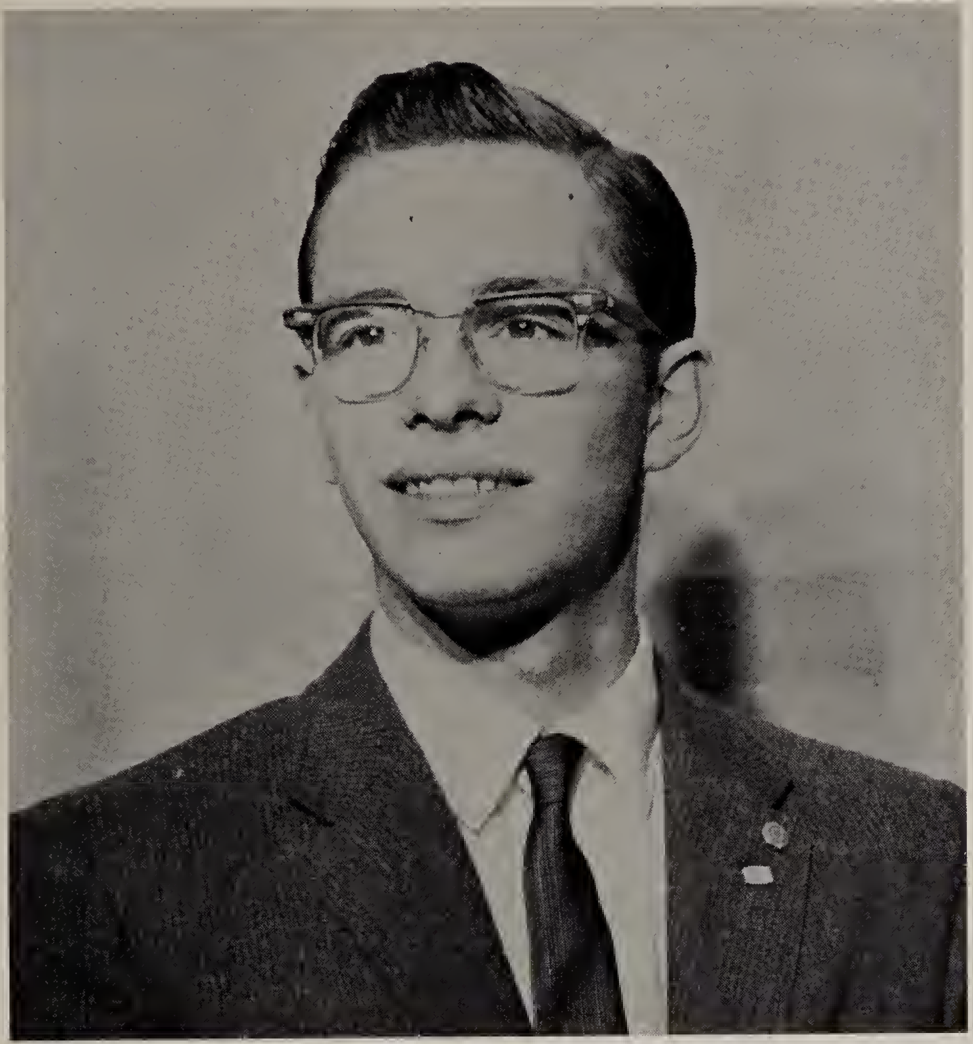
OUR CLOSING THOUGHTS ARE . . . WILL OUR CHILDREN HAVE THE SAME CHANCE TO BE EDUCATED AND TO BE A GREAT PART OF THIS "SMALL BUT MIGHTY SCHOOL?"



TO THESE WE OWE MUCH

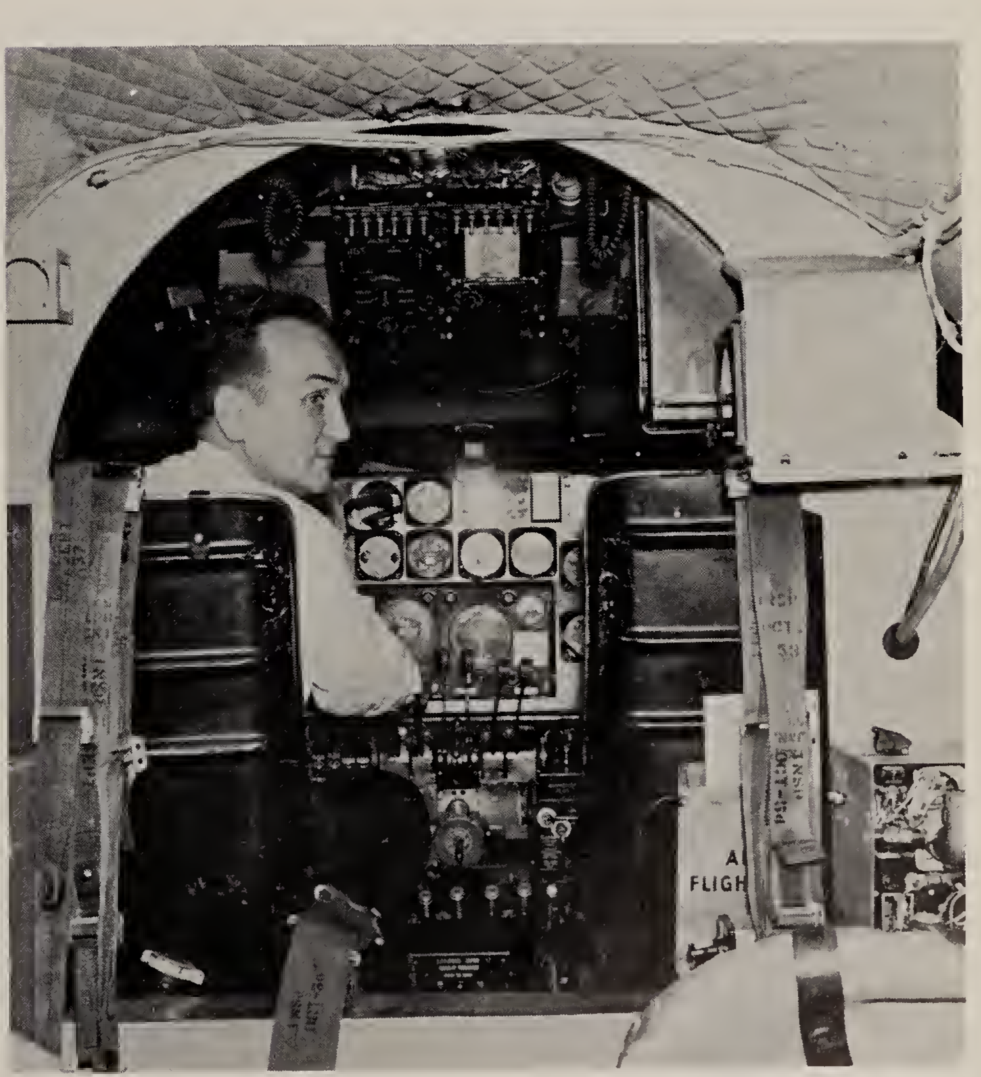
Old Timer yearbook hands know that the project always begins with about 30 or 40 students in September, but by June there remains only a handful to give an adviser one ray of hope that the book will meet the deadline. Here are four persons who saw this book shape up all the way. They spent 35,040 hours on it!



KEN KODGER, the human dynamo who kept the pictures rolling in.

DAVID RUPERT, another human dynamo who kept the money rolling in.

KATHY BRANNON, who kept the copy rolling out.



PETER HOLUB, who kept the project constantly on course.
